Specifically, the study found that the use of medication was almost as effective as the multimodal treatment of medication and behavioral interventions ( Edwards, 2002 ). Administering Medication at School Develop a plan to ensure that medication is administered in accordance with doctors recommendation Include this plan in the childs IEP Maintain child and parent rights to medical confidentiality Researchers believe that psychostimulants affect the portion of the brain that is responsible for producing neurotransmitters. Neurotransmitters are chemical agents at nerve endings that help electrical impulses travel among nerve cells. Neurotransmitters are responsible for helping people attend to important aspects of their environment. The appropriate medication stimulates these underfunctioning chemicals to produce extra neurotransmitters, thus increasing the childs capacity to pay attention, control impulses, and reduce hyperactivity. Medication necessary to achieve this typically requires multiple doses throughout the day, as an individual dose of the medication lasts for a...

### Reviews

*This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Prof. Adell Lubowitz**

*Unquestionably, this is the greatest job by any author. It really is simplistic but shocks inside the fifty percent in the book. I am just pleased to inform you that here is the greatest book i actually have go through within my own existence and could be he greatest ebook for at any time.*
