

Medieval Suffolk: An Economic and Social History, 1200-1500 (Hardback)

By Mark Bailey

Boydell Brewer Ltd, United Kingdom, 2007. Hardback. Book Condition: New. New.. 236 x 160 mm. Language: English . Brand New Book. Suffolk was one of the most important regions of England in the middle ages. Even by 1200 it was wealthy, densely populated, highly commercialised and urbanised; and it survived the impact of three of the most tumultuous events of the last millennium, the Great Famine (1315-22), the Black Death (1349) and the Peasants Revolt (1381), to become by 1500 one of the richest and most industrialised regions of England, based on cloth manufacture, fishing and tanning. This first volume in a series which will become the definitive History of Suffolk describes, documents and analyses these events. It combines an accessible and readable summary of the current state of knowledge with fresh insights drawn from extensive investigations of primary sources. Overall, it offers a guide to and re-evaluation of the history of late medieval Suffolk. Mark Bailey is senior visiting lecturer at the University of Leeds and Headmaster of The Grammar School at Leeds.

Reviews

The publication is easy in read better to understand. It is writter in basic words and phrases rather than hard to understand. You wont truly feel monotony at anytime of your respective time (that's what catalogues are for about if you question me).
