H. Wells, Esq., for eight years Superintendent of Schools of this city, has been thrice modified, and yet in substance it is but little changed. The work of revision has been carefully prosecuted during the past year, i he experience of teachers has suggested modifications. The aid of teachers, in all parts of the revision, has been most cheerfully given, and it is most thankfully acknowledged. To the Principals of all our schools credit is due for some of the most valuable suggestions, and for timely aid in the preparation of the work. The suggestions in regard to Elements of Geometry are mainly from the pen of Prof. Safford, Director of the Dearborn Observatory, who has kindly copied the same from his manuscript work on Geometry. The book is presented to the teachers for their guidance, in the belief that it is yet imperfect, but with the hope that in their hands its errors may be so corrected as to make it subserve the good of the schools and the advancement of sound learning. In the Appendix will be found a list of the Text-Books used, and the portions of each allotted to each grade.
